

Dear Legislators; Mr Chaitin and members of the community

This is a letter for all the medical cannabis users and I'm just being their voice.

Hello my name is Roxy McCoy and I'm here to tell you how I feel about medical cannabis. People out in the world need it, the people who are always in day to day pain. Such as my dad. In April of 2005 my dad was in a major motor cycle accident and in the accident he punctured a lung, fractured the left side of his ribs, shattered his wrist, and broke his back.

And when the doctors put him on pain pills he was really drowsy and confused which made him short tempered with us kids. But then he started using medical cannabis he is more fun to be around. He has now stopped taking the pills completely. Before the accident my dad found out that he had a degenerative disk disease called

and Having to see 2 Drs would be very Expensive  
(con-gen-it-al) spondylolisthesis. ~~that's~~ that's just one of the many people who need medical cannabis. And ya sure some people just smoke cannabis to get "high," but why punish those who really need it? After my dad could not do construction anymore my parents became care givers we were able to keep our house and keep us kids fed, and my parents are not the only ones, there are about 61 people employed per 1,000 patients. That's over a 1,000 jobs. So there you have it, you have heard my voice, so please ladies and gentlemen when you vote, think of my family and all the other people that are in pain like my dad. Thank you.

Sincerely,

Roxy McCoy
